(*n*) "trade" means export, re-export, import and introduction from the sea.

Designation of Management Authority.

49E. (*1*) The Central Government shall, by notification, designate an officer not below the rank of an Additional Director General of Forests as the Management Authority for discharging the functions and exercising the powers under this Act.

(*2*) The Management Authority shall be responsible for issuance of permits and certificates for trade of scheduled specimens in accordance with the Convention, submission of reports, and shall perform such other functions as may be necessary to implement the provisions of the Convention.

(*3*) The Management Authority shall prepare and submit annual and biennial reports to the Central Government.

(*4*) The Central Government may appoint such officers and employees as may be necessary to assist the Management Authority in discharging its functions or exercising its powers under this Chapter, on such terms and conditions of service including salaries and allowances as may be prescribed.

(*5*) The Management Authority may, with the prior approval of the Central Government, delegate its functions or powers, to such officers not below the rank of the Assistant Inspector General of Forests, as it may consider necessary for the purposes of this Chapter.

Designation of Scientific Authority.

49F. (*1*) The Central Government shall, by notification, designate one or more institutes engaged in research on species as Scientific Authority for the purposes of this Chapter, for fulfilling the functions under the Convention.

(*2*) The designated Scientific Authority shall advise the Management Authority in such matters as may be referred to it by the Management Authority.

(*3*) The Scientific Authority shall monitor the export permits granted for specimens of species listed in Appendix II of Schedule IV and the actual export of such specimens.

(*4*) Whenever a Scientific Authority is of the opinion that the export of specimens of such species requires to be limited in order to maintain that species throughout its range at a level consistent with its role in the ecosystems in which it occurs and well above the level at which that species might become

eligible for inclusion in Appendix I of the Convention, it shall advise the Management Authority to take such appropriate measures to limit the grant of export permits for specimens of that species as the Scientific Authority may deem necessary for said purpose.

Directions of Central Government.

49G. The Management Authority and the Scientific Authorities, shall, while performing their duties and exercising powers under this Chapter, be subject to such general or special directions, as the Central Government may, from time to time, give.

International trade in scheduled specimen and restriction in respect thereof.

49H. (*1*) No person shall engage in trade of scheduled specimens except as provided for under this Chapter.

(*2*) The Central Government shall prescribe the conditions and procedures by which the exemptions contained in Article VII of the Convention may be availed.

(*3*) Every person engaging in trade of a scheduled specimen shall report the details of the scheduled specimen and the transaction to the Management Authority or the officer authorised by it in such manner as may be prescribed.

(*4*) Every person engaging in trade of a scheduled specimen, shall present it for clearance to the Management Authority or the officer authorised by it or a customs officer only at the ports of exit and entry as may be specified by the Central Government.

(*5*) The form and manner of making an application for a permit or certificate to trade in a scheduled specimen, the fee payable therefor, the conditions subject to which the permit or certificate may be granted, and the procedure to be followed in granting or cancelling such permit or certificate, shall be such as may be prescribed by the Central Government.

Conditions for export of scheduled specimens.

49-I. (*1*) The export of any specimen of species included in Appendices I or II of Schedule IV shall require the prior grant and presentation of an export permit.

(*2*) The export of any specimen of species included in Appendix III of Schedule IV shall require the prior grant and presentation of an export permit if the species has been listed in Appendix III of the Convention by India or a certificate of origin in other cases.

(*3*) An export permit shall not be granted unless—

(*a*) the Management Authority is satisfied that the specimen concerned has not been obtained in contravention of any law for the time being in force relating to protection of fauna and flora;

(*b*) the Management Authority is satisfied that any living specimen will be so prepared and shipped as to minimise the risk of injury, damage to health or cruel treatment;

(*c*) in the case of a specimen of a species listed in Appendices I or II of Schedule IV, the Scientific Authority has advised that the export will not be detrimental to the survival of that species; and

(*d*) in the case of specimens of species listed in Appendix I of Schedule IV, an import permit has been granted by the competent authority of the country of destination.

Conditions for import of scheduled specimens.

49J. (*1*) The import of any specimen of a species included in Appendix I of Schedule IV shall require the prior grant and presentation of an import permit and either an export permit or a re-export certificate from the country of export.

(*2*) An import permit for a specimen of a species listed in Appendix I of Schedule IV shall not be granted unless—

(*a*) the Management Authority is satisfied that the specimen concerned will not be used for primarily commercial purposes;

(*b*) the Scientific Authority has advised that the import will be for purposes which are not detrimental to the survival of the species; and

(*c*) the Scientific Authority is satisfied that the proposed recipient of a living specimen is suitably equipped to house and care for it.

(*3*) The import of any specimen of a species included in Appendix II of Schedule IV shall require the prior presentation of either an export permit or a re-export certificate issued by the country of export.

(*4*) The import of any specimen of a species included in Appendix III of Schedule IV shall require the prior presentation of—

(*a*) a certificate of origin; or

(*b*) in the case where the import is from a country which has included the species in Appendix III of the Convention, an export permit; or

(*c*) a re-export certificate granted by the country of re-export.

Conditions for re-export of scheduled specimens.

49K. (*1*) The re-export of any specimen of species included in Appendices I or II of Schedule IV shall require the prior grant and presentation of a re-export certificate.

(*2*) A re-export certificate shall not be granted unless—

(*a*) the Management Authority is satisfied that any specimen to be re-exported was imported in accordance with the provisions of this Chapter and of the Convention;

(*b*) the Management Authority is satisfied that any living specimen will be so prepared and shipped as to minimise the risk of injury, damage to health or cruel treatment; and

(*c*) in the case of any living specimen of species listed in Appendix I of Schedule IV, the Management Authority is satisfied that an import permit has been granted.

Conditions for introduction from sea of scheduled specimens.

49L. (*1*) The introduction from the sea of a specimen of a species included in Appendices I or II of Schedule IV shall require the prior grant and presentation of a certificate of introduction from the sea.

(*2*) A certificate of introduction from the sea shall not be granted unless—

(*a*) the Scientific Authority has advised that the introduction of any specimen will not be detrimental to the survival of the species;

(*b*) in the case of a specimen of a species listed in Appendix I of Schedule IV, the Management Authority is satisfied that it is not to be used for primarily commercial purposes and that the proposed recipient of any living specimen is suitably equipped to house and care for it; and

(*c*) in the case of a living specimen of a species listed in Appendix II

of Schedule IV, the Management Authority is satisfied that it will be so handled as to minimise the risk of injury, damage to health or cruel treatment.

Possession, transfer and breeding of living scheduled animal species.

49M. (*1*) Every person possessing a living specimen of an animal species listed in Schedule IV shall report the details of such specimen or specimens in his possession to the Management Authority or the authorised officer:

Provided that the Central Government may exempt one or more specimens of any animal species included in Schedule IV from such declaration for such quantity and for such period as it may deem fit.

(*2*) The Management Authority or the authorised officer may, on being satisfied that a person was in possession of a living specimen of an animal species listed in Schedule IV which had not been obtained in contravention of any law relating to protection of fauna and flora, issue a registration certificate allowing the owner to retain such specimen.

(*3*) Any person who transfers possession, by any means whatsoever, of any living specimen of an animal species listed in Schedule IV shall report the details to the Management Authority or the authorised officer.

(*4*) The Management Authority or the authorised officer shall register all transfers of living specimens of animal species listed in Schedule IV and issue the transferee with a registration certificate.

(*5*) Any person in possession of any living specimen of an animal species listed in Schedule IV which bears any offspring shall report the birth of such offspring to the Management Authority or the authorised officer.

(*6*) The Management Authority or the authorised officer shall on receipt of the report under sub-section (*5*) register any offspring born to any living specimen of an animal species listed in Schedule IV and issue the owner with a registration certificate.

(*7*) Any person in possession of any living specimen of an animal species listed in Schedule IV which dies shall report such death to the Management Authority or the authorised officer.

(*8*) No person shall possess, transfer or breed any living specimen of any animal species listed in Schedule IV except in conformity with this section and the rules made by the Central Government in this behalf.

(*9*) The form, manner and period for reporting possession, transfers, and births, deaths, and registration of the same under this section shall be as prescribed by the Central Government.

Application for Licence by breeders of Appendix I species.

49N. (*1*) Every person who is engaged in breeding in captivity or artificially propagating any scheduled specimen listed in Appendix I of Schedule IV shall make, within a period of ninety days of the commencement of the Wild Life (Protection) Amendment Act, 2022, an application for a licence to the Chief Wild Life Warden.

(*2*) The form and manner of the application to be made to the Chief Wild Life Warden under sub-section (*1*), the fee payable, the form of licence, the procedure to be followed in granting or cancelling the licence shall be such as may be prescribed by the Central Government.

Licence of breeders of Appendix I species.

49-O. (*1*) On receipt of application under sub-section (*1*) of section 49N, the Chief Wild Life Warden shall, if—

(*a*) the application is in the prescribed form;

(*b*) the resolutions of the Convention relating to breeding in captivity or artificial propagation of species listed in Appendix I of Schedule IV are satisfied; and

(*c*) the provisions of the Act and rules made thereunder have been duly complied with,

record an entry of the statement in a register and grant the applicant a licence.

(*2*) The Chief Wild Life Warden shall, if the provisions or resolutions of the Convention or this Act and any rules made hereunder have not been complied with, or if a false particular is furnished, refuse or cancel the licence as the case may be after providing the applicant with an opportunity of being heard.

(*3*) The licence under sub-section (*1*) shall be issued for a period of two years and may be renewed after two years on payment of such fee as may be prescribed.

(*4*) Any person aggrieved by the refusal of the Chief Wild Life Warden or cancellation of licence under sub-section (*2*) may prefer an appeal to the State Government within a period of sixty days in such manner as may be prescribed.

Prohibition on alteration, etc.

49P. No person shall alter, deface, erase or remove a mark of identification affixed upon the scheduled specimen or its package.

Species and scheduled specimens to be Government property.

49Q. (*1*) Every species or scheduled specimen, in respect of which any offence against this Act or rules made thereunder has been committed, shall become the property of the Central Government and the provisions of section 39 shall, without prejudice to the Customs Act, 1962, apply, *mutatis mutandis*, in relation to species and scheduled specimens as they apply in relation to wild animals, captive animals and animal articles.

52 of 1962.

(*2*) Where a living specimen of a species listed in Schedule IV has been seized under this Act or the Customs Act, 1962 or any other law for the time being in force as a result of import into India in contravention of this Act, the Management Authority shall, after consultation with the country of export, return the specimen to that country at the expense of that country, or ensure that it is housed and cared for by a recognised zoo or rescue centre in case it cannot be returned to the country of export.

52 of 1962.

(*3*) The Management Authority may for such purposes consult the Scientific Authority as it deems appropriate.

Application of provisions of Act in respect of species listed in Schedule I or II and Schedule IV.

49R. (*1*) Where the same species is listed in Schedule I or II and Schedule IV, then, the provisions of this Act applicable to such species listed in Schedule I or II and the rules made thereunder shall apply.

(*2*) Nothing in sections 49M, 49N or 49-O shall apply to a species listed in Schedule I or Schedule II if the same species is also listed in Scheduled IV.

(*3*) The provisions of this Chapter shall be subject to the provisions of Chapters III, IIIA, IVA, V, VA and VIA and without prejudice to anything contained therein.'.

SCHEDULE IV

(*See* Chapter VB and sections 39, 50, 51, 54, 57)

Interpretation

1. Species included in these Appendices are referred to:

   (a) by the name of the species; or
   (b) as being all of the species included in a higher taxon or designated part thereof.

2. The abbreviation "spp." is used to denote all species of a higher taxon.

3. Other references to taxa higher than species are for the purposes of information or classification only. The common names included after the scientific names of families are for reference only. They are intended to indicate the species within the family concerned that are included in the Appendices. In most cases this is not all of the species within the family.

4. The following abbreviations are used for plant taxa below the level of species:
   (a) "ssp." is used to denote subspecies; and
   (b) "var(s)." is used to denote variety (varieties).

5. As none of the species or higher taxa of FLORA included in Appendix I is annotated to the effect that its hybrids shall be treated in accordance with the provisions of Article III of the Convention, this means that artificially propagated hybrids produced from one or more of these species or taxa may be traded with a certificate of artificial propagation, and that seeds and pollen (including pollinia), cut flowers, seedling or tissue cultures obtained *in vitro*, in solid or liquid media, transported in sterile containers of these hybrids are not subject to the provisions of the Convention.

6. The names of the countries in parentheses placed against the names of species in Appendix III are those of the Parties submitting these species for inclusion in this Appendix.

7. When a species is included in one of the Appendices, the whole, live or dead, animal or plant is included. In addition, for animal species listed in Appendix III and plant species listed in Appendix II or III, all parts and derivatives of the species are also included in the same Appendix unless the species is annotated to indicate that only specific parts and derivatives are included. The symbol # followed by a number placed against the name of a species or higher taxon included in Appendix II or III refers to a footnote that indicates the parts or derivatives of animals or plants that are designated as 'specimens' subject to the provisions of the Convention in accordance with Article I, paragraph (b), subparagraph (ii) or (iii). Numbers not preceded by a # symbol placed against the name of a species or higher taxon refer to a footnote that indicates specific conditions or restrictions that are applicable to trade of such species or higher taxon under the Convention.

8. The terms and expressions below, used in annotations in these Appendices, are defined as follows:

Extract

Any substance obtained directly from plant material by physical or chemical means regardless of the manufacturing process. An extract may be solid (e.g. crystals, resin, fine or coarse particles), semi-solid (e.g. gums, waxes) or liquid (e.g. solutions, tinctures, oil and essential oils).

Finished musical instruments

A musical instrument (as referenced by the Harmonized System of the World Customs Organization, Chapter 92; musical instruments, parts and accessories of such articles) that is ready to play or needs only the installation of parts to make it playable. This term includes antique instruments (as defined by the Harmonized System codes 97.05 and 97.06; Works of art, collectors' pieces and antiques).

Finished musical instrument accessories

A musical instrument accessory (as referenced by the Harmonized System of the World Customs Organization, Chapter 92; musical instruments, parts and accessories of such articles) that is separate from the musical instrument, and is specifically designed or shaped to be used explicitly in association with an instrument, and that requires no further modification to be used.

Finished musical instrument parts

A part (as referenced by the Harmonized System of the World Customs Organization, Chapter 92; musical instruments, parts and accessories of such articles) of a musical instrument that is ready to install and is specifically designed and shaped to be used explicitly in association with the instrument to make it playable.

Finished products packaged and ready for retail trade

Products, shipped singly or in bulk, requiring no further processing, packaged, labelled for final use or the retail trade in a state fit for being sold to or used by the general public.

Powder

A dry, solid substance in the form of fine or coarse particles.

Shipment

Cargo transported under the terms of a single bill of lading or air waybill, irrespective of the quantity or number of containers, packages, or pieces worn, carried or included in personal baggage.

Ten (10) kg per shipment

For the term "10 kg per shipment", the 10 kg limit should be interpreted as referring to the weight of the individual portions of each item in the shipment made of wood of the species concerned. In other words, the 10 kg limit is to be assessed against the weight of the individual portions of wood of Dalbergia/Guibourtia *species contained in each item of the shipment, rather than against the total weight of the shipment.*

Transformed wood

Defined by Harmonized System code 44.09: Wood (including strips, friezes for parquet flooring, not assembled), continuously shaped (tongued, grooved, v-jointed, beaded or the like) along any edges, ends or faces, whether or not planed, sanded or end-jointed.

Woodchips

Wood that has been reduced to small pieces.

APPENDIX I

FAUNA (ANIMALS)

PHYLUM CHORDATA

CLASS MAMMALIA (MAMMALS)

ARTIODACTYLA

Antilocapridae Pronghorns

1	*Antilocapra americana* (Only the population of Mexico is included in Appendix I. No other population is included in the Appendices.)

Bovidae
Antelopes, cattle, duikers, gazelles, goats, sheep, etc.

2	*Addax nasomaculatus*
3	*Bos gaurus* (Excludes the domesticated form, which is referenced as *Bos frontalis*, and is not subject to the provisions of the Convention.)
4	*Bos mutus* (Excludes the domesticated form, which is referenced as *Bos grunniens*, and is not subject to the provisions of the Convention.)
5	*Bos sauveli*
6	*Bubalus depressicornis*
7	*Bubalus mindorensis*
8	*Bubalus quarlesi*
9	*Capra falconeri*
10	*Capricornis milneedwardsii*
11	*Capricornis rubidus*
12	*Capricornis sumatraensis*
13	*Capricornis thar*
14	*Cephalophus jentinki*
15	*Gazella cuvieri*
16	*Gazella leptoceros*

17		*Hippotragus niger variani*
18		*Naemorhedus baileyi*
19		*Naemorhedus caudatus*
20		*Naemorhedus goral*
21		*Naemorhedus griseus*
22		*Nanger dama*
23		*Oryx dammah*
24		*Oryx leucoryx*
25		*Ovis gmelini* (Only the population of Cyprus; no other population is included in the Appendices)
26		*Ovis hodgsoni*
27		*Ovis nigrimontana*
28		*Ovis vignei*
29		*Pantholops hodgsonii*
30		*Pseudoryx nghetinhensis*
	Camelidae Camels, guanacos, vicunas	
31		*Vicugna vicugna* [Except the populations of: Argentina (the populations of the Provinces of Jujuy, Catamarca and Salta, and the semi-captive populations of the Provinces of Jujuy, Salta, Catamarca, La Rioja and San Juan), Chile (populations of the region of Tarapacá and of the region of Arica and Parinacota), Ecuador (the whole population), Peru (the whole population) and the Plurinational State of Bolivia (the whole population), which are included in Appendix II]
	Cervidae Deer, huemuls, muntjacs, pudus	
32		*Axis calamianensis*
33		*Axis kuhlii*
34		*Axis porcinus annamiticus*
35		*Blastocerus dichotomus*
36		*Cervus elaphus hanglu*
37		*Dama dama mesopotamica*
38		*Hippocamelus* spp.
39		*Muntiacus crinifrons*
40		*Muntiacus vuquanghensis*
41		*Ozotoceros bezoarticus*
42		*Pudu puda*
43		*Rucervus duvaucelii*

44		*Rucervus eldii*
	Moschidae Musk deer	
45		*Moschus* spp. (Only the populations of Afghanistan, Bhutan, India, Myanmar, Nepal and Pakistan; all other populations are included in Appendix II)
	Suidae Babirusa, hogs, pigs	
46		*Babyrousa babyrussa*
47		*Babyrousa bolabatuensis*
48		*Babyrousa celebensis*
49		*Babyrousa togeanensis*
50		*Sus salvanius*
	Tayassuidae Peccaries	
51		*Catagonus wagneri*
	CARNIVORA **Ailuridae** Red pandas	
52		*Ailurus fulgens*
	Canidae Dogs, foxes, wolves	
53		*Canis lupus* (Only the populations of Bhutan, India, Nepal and Pakistan; all other populations are included in Appendix II. Excludes the domesticated form and the dingo which are referenced as *Canis lupus familiaris* and *Canis lupus dingo*, respectively, which are not subject to the provisions of the Convention)
54		*Speothos venaticus*
	Felidae Cats	
55		*Acinonyx jubatus* (Annual export quotas for live specimens and hunting trophies are granted as follows: Botswana: 5; Namibia: 150; Zimbabwe: 50. The trade in such specimens is subject to the provisions of Article III of the Convention.)
56		*Caracal caracal* (Only the population of Asia; all other populations are included in Appendix II.)
57		*Catopuma temminckii*
58		*Felis nigripes*

59		*Herpailurus yagouaroundi* (Only the populations of Central and North America; all other populations are included in Appendix II)
60		*Leopardus geoffroyi*
61		*Leopardus guttulus*
62		*Leopardus jacobita*
63		*Leopardus pardalis*
64		*Leopardus tigrinus*
65		*Leopardus wiedii*
66		*Lynx pardinus*
67		*Neofelis diardi*
68		*Neofelis nebulosa*
69		*Panthera leo* (Only the populations of India; all other populations are included in Appendix II.)
70		*Panthera onca*
71		*Panthera pardus*
72		*Panthera tigris*
73		*Panthera uncia*
74		*Pardofelis marmorata*
75		*Prionailurus bengalensis bengalensis* (Only the populations of Bangladesh, India and Thailand; all other populations are included in Appendix II.)
76		*Prionailurus planiceps*
77		*Prionailurus rubiginosus* (Only the population of India; all other populations are included in Appendix II.)
78		*Puma concolor* (Only the populations of Costa Rica and Panama; all other populations are included in Appendix II)
	Lutrinae Otters	
79		*Aonyx capensis microdon* (Only the populations of Cameroon and Nigeria; all other populations are included in Appendix II.)
80		*Aonyx cinerea*
81		*Enhydra lutris nereis*
82		*Lontra felina*
83		*Lontra longicaudis*
84		*Lontra provocax*
85		*Lutra lutra*
86		*Lutra nippon*
87		*Lutrogale perspicillata*

88		*Pteronura brasiliensis*
	Mustelinae Grisons, honey badgers, martens, tayra, weasels	
89		*Mustela nigripes*
	Otariidae Fur seals, sealions	
90		*Arctocephalus townsendi*
	Phocidae Seals	
91		*Monachus* spp.
	Ursidae Bears, giant pandas	
92		*Ailuropoda melanoleuca*
93		*Helarctos malayanus*
94		*Melursus ursinus*
95		*Tremarctos ornatus*
96		*Ursus arctos* (Only the populations of Bhutan, China, Mexico and Mongolia; all other populations are included in Appendix II.)
97		*Ursus arctos isabellinus*
98		*Ursus thibetanus*
	Viverridae Binturong, civets, linsangs, otter-civet, palm civets	
99		*Prionodon pardicolor*
	CETACEA DOLPHINS, PORPOISES, WHALES **Balaenidae** Bowhead whale, right whales	
100		*Balaena mysticetus*
101		*Eubalaena* spp.
	Balaenopteridae Fin whales, humpback whales, rorquals	
102		*Balaenoptera acutorostrata* (Except the population of West Greenland, this is included in Appendix II.)
103		*Balaenoptera bonaerensis*
104		*Balaenoptera borealis*

105		*Balaenoptera edeni*
106		*Balaenoptera musculus*
107		*Balaenoptera omurai*
108		*Balaenoptera physalus*

Footnotes

1	For the exclusive purpose of allowing international trade in fibre from vicuñas (*Vicugna vicugna*) and their derivative products, only if the fibre comes from the shearing of live vicuñas. Trade in products derived from the fibre may only take place in accordance with the following provisions: (a). Any person or entity processing vicuña fibre to manufacture cloth and garments must request authorization from the relevant authorities of the country of origin (Countries of origin: The countries where the species occurs, that is, Argentina, Bolivia, Chile, Ecuador and Peru) to use the "vicuña country of origin" wording, mark or logo adopted by the range States of the species that are signatories to the Convention for the Conservation and Management of the Vicuña. (b). Marketed cloth or garments must be marked or identified in accordance with the following provisions: i. For international trade in cloth made from live-sheared vicuña fibre, whether the cloth was produced within or outside of the range States of the species, the wording, mark or logo must be used so that the country of origin can be identified. The VICUÑA [COUNTRY OF ORIGIN] wording, mark or logo has the format as detailed below:  This wording, mark or logo must appear on the reverse side of the cloth. In addition, the selvages of the cloth must bear the words VICUÑA [COUNTRY OF ORIGIN]. ii. For international trade in garments made from live-sheared vicuña fibre, whether the garments were produced within or outside of the range States of the species, the wording, mark or logo indicated in paragraph b) i) must be used. This wording, mark or logo must appear on a label on the garment itself. If the garments are produced outside of the country of origin, the name of the country where the garment was produced should also be indicated, in addition to the wording, mark or logo referred to in paragraph b) i).

	(c). If live-sheared vicuña fibre from various countries of origin is used for the production of cloth and garments, the wording, mark or logo of each of the countries of origin of the fibre must be indicated, as detailed in paragraphs b) i) and ii). (e). All other specimens shall be deemed to be specimens of species listed in Appendix I and the trade in them shall be regulated accordingly
2	Populations of Botswana, Namibia, South Africa and Zimbabwe (listed in Appendix II): For the exclusive purpose of allowing: (a) trade in hunting trophies for non-commercial purposes; (b) trade in live animals to appropriate and acceptable destinations, as defined in Resolution Conf. 11.20 (Rev. CoP18), for Botswana and Zimbabwe and for *in situ* conservation programmes for Namibia and South Africa; (c) trade in hides; (d) trade in hair; (e) trade in leather goods for commercial or non-commercial purposes for Botswana, Namibia and South Africa and for non-commercial purposes for Zimbabwe; (f) trade in individually marked and certified ekipas incorporated in finished jewellery for non-commercial purposes for Namibia and ivory carvings for non-commercial purposes for Zimbabwe; (g) trade in registered raw ivory (for Botswana, Namibia, South Africa and Zimbabwe, whole tusks and pieces) subject to the following: i. only registered government-owned stocks, originating in the State (excluding seized ivory and ivory of unknown origin); ii. only to trading partners that have been verified by the Secretariat, in consultation with the Standing Committee, to have sufficient national legislation and domestic trade controls to ensure that the imported ivory will not be re-exported and will be managed in accordance with all requirements of Resolution Conf. 10.10 (Rev. CoP18) concerning domestic manufacturing and trade; iii. not before the Secretariat has verified the prospective importing countries and the registered government-owned stocks;

	iv. raw ivory pursuant to the conditional sale of registered government-owned ivory stocks agreed at CoP12, which are 20,000 kg (Botswana), 10,000 kg (Namibia) and 30,000 kg (South Africa); v. in addition to the quantities agreed at CoP12, government-owned ivory from Botswana, Namibia, South Africa and Zimbabwe registered by 31 January 2007 and verified by the Secretariat may be traded and despatched, with the ivory in paragraph g) iv) above, in a single sale per destination under strict supervision of the Secretariat; vi. the proceeds of the trade are used exclusively for elephant conservation and community conservation and development programmes within or adjacent to the elephant range; and vii. the additional quantities specified in paragraph g) v) above shall be traded only after the Standing Committee has agreed that the above conditions have been met; and viii. no further proposals to allow trade in elephant ivory from populations already in Appendix II shall be submitted to the Conference of the Parties for the period from CoP14 and ending nine years from the date of the single sale of ivory that is to take place in accordance with provisions in paragraphs g) i), g) ii), g) iii), g) vi) and g) vii). In addition such further proposals shall be dealt with in accordance with Decisions 16.55 and 14.78 (Rev. CoP16). On a proposal from the Secretariat, the Standing Committee can decide to cause this trade to cease partially or completely in the event of non-compliance by exporting or importing countries, or in the case of proven detrimental impacts of the trade on other elephant populations. All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.
9	Artificially propagated specimens of the following hybrids and/or cultivars are not subject to the provisions of the Convention: – *Hatiora* x *graeseri* – *Schlumbergera* x *buckleyi* – *Schlumbergera russelliana* x *Schlumbergera truncata* – *Schlumbergera orssichiana* x *Schlumbergera truncata* – *Schlumbergera opuntioides* x *Schlumbergera truncata* – *Schlumbergera truncata* (cultivars) – Cactaceae spp. colour mutants grafted on the following grafting stocks: *Harrisia* 'Jusbertii', *Hylocereus trigonus* or *Hylocereus undatus* – *Opuntia microdasys* (cultivars).

10	Artificially propagated hybrids of the following genera are not subject to the provisions of the Convention, if conditions, as indicated under a) and b), are met: *Cymbidium, Dendrobium, Phalaenopsis* and *Vanda*: (a) Specimens are readily recognizable as artificially propagated and do not show any signs of having been collected in the wild such as mechanical damage or strong dehydration resulting from collection, irregular growth and heterogeneous size and shape within a taxon and shipment, algae or other epiphyllous organisms adhering to leaves, or damage by insects or other pests; and (b) i) when shipped in non-flowering state, the specimens must be traded in shipments consisting of individual containers (such as cartons, boxes, crates or individual shelves of CC-containers) each containing 20 or more plants of the same hybrid; the plants within each container must exhibit a high degree of uniformity and healthiness; and the shipment must be accompanied by documentation, such as an invoice, which clearly states the number of plants of each hybrid; or (c) when shipped in flowering state, with at least one fully open flower per specimen, no minimum number of specimens per shipment is required but specimens must be professionally processed for commercial retail sale, e.g. labelled with printed labels or packaged with printed packages indicating the name of the hybrid and the country of final processing. This should be clearly visible and allow easy verification. Plants not clearly qualifying for the exemption must be accompanied by appropriate CITES documents.
11	Artificially propagated specimens of cultivars of *Cyclamen persicum* are not subject to the provisions of the Convention. However, the exemption does not apply to such specimens traded as dormant tubers.
